Hi Andy,

OCFO provided comments on the OMB PFAS presentation we intend to provide on Thursday, March 1st. We requested their feedback before we shared with OMB.

Would you be able to adjust the OMB PFAS briefing per Bradley Grams recommended edits? Some of his comments are fairly straight forward, however there are a couple (**Deliberative Process / Ex. 5**) that may require more detail.

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

Lahne- would you a relevant slide available we could input into the presentation?

Thank you,
Megan

Importance: High

Hi Megan:

I know you're on a tight timeline, so I wanted to get you comments back ASAP from the ORD (me) and OW (Michelle Guck) analysts, as ORD and OW are viewed as Co-Leads on this topic.

Generally, the presentation was very good and addressed many of OMB's Agenda topics. However, we had a few comments in the context of the Agenda and Questions that OMB supplied for the meeting. They are as follows:

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

I'll send you any additional comments from the other Media Analysts by COB today, but I wanted you to see these earlier as they may be more work intensive.

Thanks so much for your help on this!

Cheers,

Brad,

Please let OMB know that we have a presentation that will be posted to the meeting invitation. Hard copies will also be available in the room the day of the meeting.

Regarding the presentation, we would like OCFO to review before I post. The presentation is attached here. Please let me know if OCFO has any comments. I hope to post the presentation tomorrow.

Since some OMB folks will be participating remotely, I will add an Adobe Connect link to the meeting invitation as well.

Best,
Megan

Hi Megan:

As far as we know, most of the OMB folks will be attending, though a couple of OMB were planning to use the dial-in number last we spoke. I will check in with them now.

Also, does ORD have a presentation or materials to share with OMB prior to the meeting? (OMB just wrote me about that.)

Thanks!

Good afternoon Brad,

Are we expecting OMB to join us here in the Ronald Reagan Building for the March 1 PFAS briefing? Since the meeting is 2 hours, Jennifer has requested that this be a face-to-face meeting.

If they are not able to join us in person, we will add an AdobeConnect link to the invitation.

Best,
Megan

Hi Megan and Nathan:

OMB is open all day through 4pm on March 1, so they are open with any two-hour timeslot as long as it ends before 4pm.

Also, they are fine with Jennifer cancelling the 15th and sending out something for March 1st.

Thanks!

Good morning,

March 1st would work well. Are we still aiming for a 90 min discussion?

Thank you for the heads up.

Subject: RE: Timing for PFAS Meeting and meeting length.

Sensitivity: Confidential

Hi Bradley -

To start off, I don't want to cancel the planned meeting for the 15th (just yet). But I would like to check in with your team's availability to potentially push it back to Thursday, March 1st or Friday, March 2nd.

If the release of ATSDR's toxicology profile on PFAS substances is not imminent, it would be better to push our briefing back so that EPA has more time to prepare a presentation (and perhaps the Administrator will have signed off on the Agency's PFAS Plan by that time), and so that the majority of OMBers can be present and we can plan around it. But if it seems like ATSDR's plan are moving more quickly, then we can continue with our meeting next week.

Sorry again, but can you go back and check the availability for these two dates? I will do the same on my side once I hear back from you. Thanks so much!

- Eric
